AUTOBAT[®]

INVA-SOL

Inverter / Solar Tubular Battery

Autobat introducing Inverter / Solar heat sealed range of tubular stationary future generation batteries with almost maintenance free characteristics.

Features

Specially mixed corrosion resistant alloy for spines & grids Tubular gauntlets of high brushing strength with high performance for positive plates. • Specially made wave ribbed P. E. Separator. • Electrolyte volume per AH is very much higher than ordinary Tubular batteries. • Almost maintenance free battery. Specially designed vent plugs with level indicators to trap water loss

Applications

All types of Solar power generating systems • UPS System • Domestic Invertors • Hospitals • Labs Hotels • Mobile Phone Stations & Transmitters.

TECHNICAL SPECIFICATIONS

Battery Model	Battery Capacity @ C20 AH	Length Overall mm	Bottom mm	Width mm	Height mm
ABIS 13500	12V 135AH	503	475	190	443
ABIS 15000	12V 150AH	503	475	190	443
