

# Greetings!

DIVY POWER has nearly 25 years of experience in Providing Energy solutions with Excellency of Energy Audit, Energy Safety, and Generators & Solar energy.

We have partnered with industry leaders and offer “best in class” products at affordable prices.

DIVY Power is having more-than thousand satisfied customers. Our growth is based on our capability to deliver technically feasible and cost-effective solutions and quality after sales services.

**Our Service Offering Include need based: -**

- Concept to design definition
- Technical & commercial feasibility
- Installation & commissioning
- Assistance in Project financing
- Operations & Maintenance (O&M) support

## Vision

To create a positive impact on country's economy, people's health and the climate through mass adoption of solar energy by corporate, Institutions and community by providing cost effective NANO solutions with retrofit ability without any ailments.

## Mission

For clean breathable Pure Air through our efforts. To provide energy efficient solutions through solar projects for corporate, communities and institutions along with assets monitoring and management.

## Commitment

We are committed to provide energy effective solutions even to the lowest sector of the society by promoting solar energy, and doing our best to ensure that we provide excellent service at every doorstep.

# WE PROVIDE...

- Complete Solution for Energy Need and Energy Conditioning.
- Utmost Energy Backup with all whether solution.
- Solar Energy Solution.
  - On Grid Solar system-
    - Industries served up to 10 Mwp with single Customer.
    - Energizing Small need as low as 2 kwp to Residential Customers.
    - Specially Designed Kitting (2-10) Solution to provide fast delivery of Genuine Products.
  - **ESS- Energy Saving Solution**
    - Viable Solution for Energy Storage and its generation through Solar
- Energy Transmission

## ...CONTINUED

- Solar Powered Dc Pumps
  - Modern Technical Solution - DC pump to reduce the energy Consumption
  - Can derive all need of house hold and small establishment.
- Ultra Technic Solution for Earthing (Grounding)
  - Saving lives from leakage of current.
- Smart Switches

# Path of Success - we can move you ahead

## **Updated Technology and Design**

Provides best of the technical designs and solutions to generate optimum energy and value of Money.

## **Safe - Work Flow Management**

Properly encrypted secure working step to ensure the project handover on time.

## **End-To-End Solutions**

PMC, EPC, O&M, and Asset Management with Real Time Monitoring

## **Performance Management**

Highly Efficient Support for Committed Future Growth and plant's health check-ups.

India's first IOT enabled Genset  
The Complete Power Back-up Solution

EFFICIENCY HAS A NEW NAME

**karloskar**  
**iGREEN**

- India's Most Trusted Brand
- Divy's Dependability
- Ultimate power backup source

- Authorised-
- OEA – Original Equipment's  
Assembler for HARYANA

## Kirloskar iGreen

ASSURES A SAFE AND RELIABLE POWER BACKUP ECOSYSTEM

**#i**forTomorrow

## DIVY is committed-

- Dense Sales Network
- Quick Response
- Dependable Service Network
- Easy Connect
  
- PoS (Point of Sale)
- At every District of Haryana
- 30 + Dealers available on a click.

# Why we....

# We Offer...

# RENEWABLES TO POWER GROWTH

Lighting up Lives!

## **Project Management Consultancy (PMC)**

From technical design to engineering, procurement, installation, commissioning and maintenance – We are with you.

## **Engineering Procurement Construction (EPC)**

The complete project incubation from installation to handover of solar power plant is our Expertise. In view of designing and complete assistance to the client for the best of the returns on their investments.

## **Operations & Maintenance (O&M)**

With a strong, well-established team of engineers, DIVY Power assured you of getting the highest generation per MW with highest Capacity Utilization Factor (CUF) and the best efficiency of your Plant with the highest Plant Load Factor (PLF).

## **Liaison support with Ministry and State Nodal Agencies, if needed**

Whether it is an approval, clearance, accreditation or a registration from the Ministry or a State Nodal Agency, we can help you get all necessary clearances.

## **Power Trading and open access Mechanism**

We provide the complete solution of energy trading through variable reliable sources.

# *Solar Water Pump*

A solar water pump is a use of photovoltaic innovation which changes solar energy into power over to run the pumping system thereby, replacing erratic grid supply and pollution-causing diesel-powered versions.

# *Nano Solution*

Nano Solution Divvy Power's main mission is to ensure electricity in every rural areas. Solar Pv are installed in remote area of the country where possibility of grid connection is very less and that why

We provide quality electricity to every rural household and small commercial users.

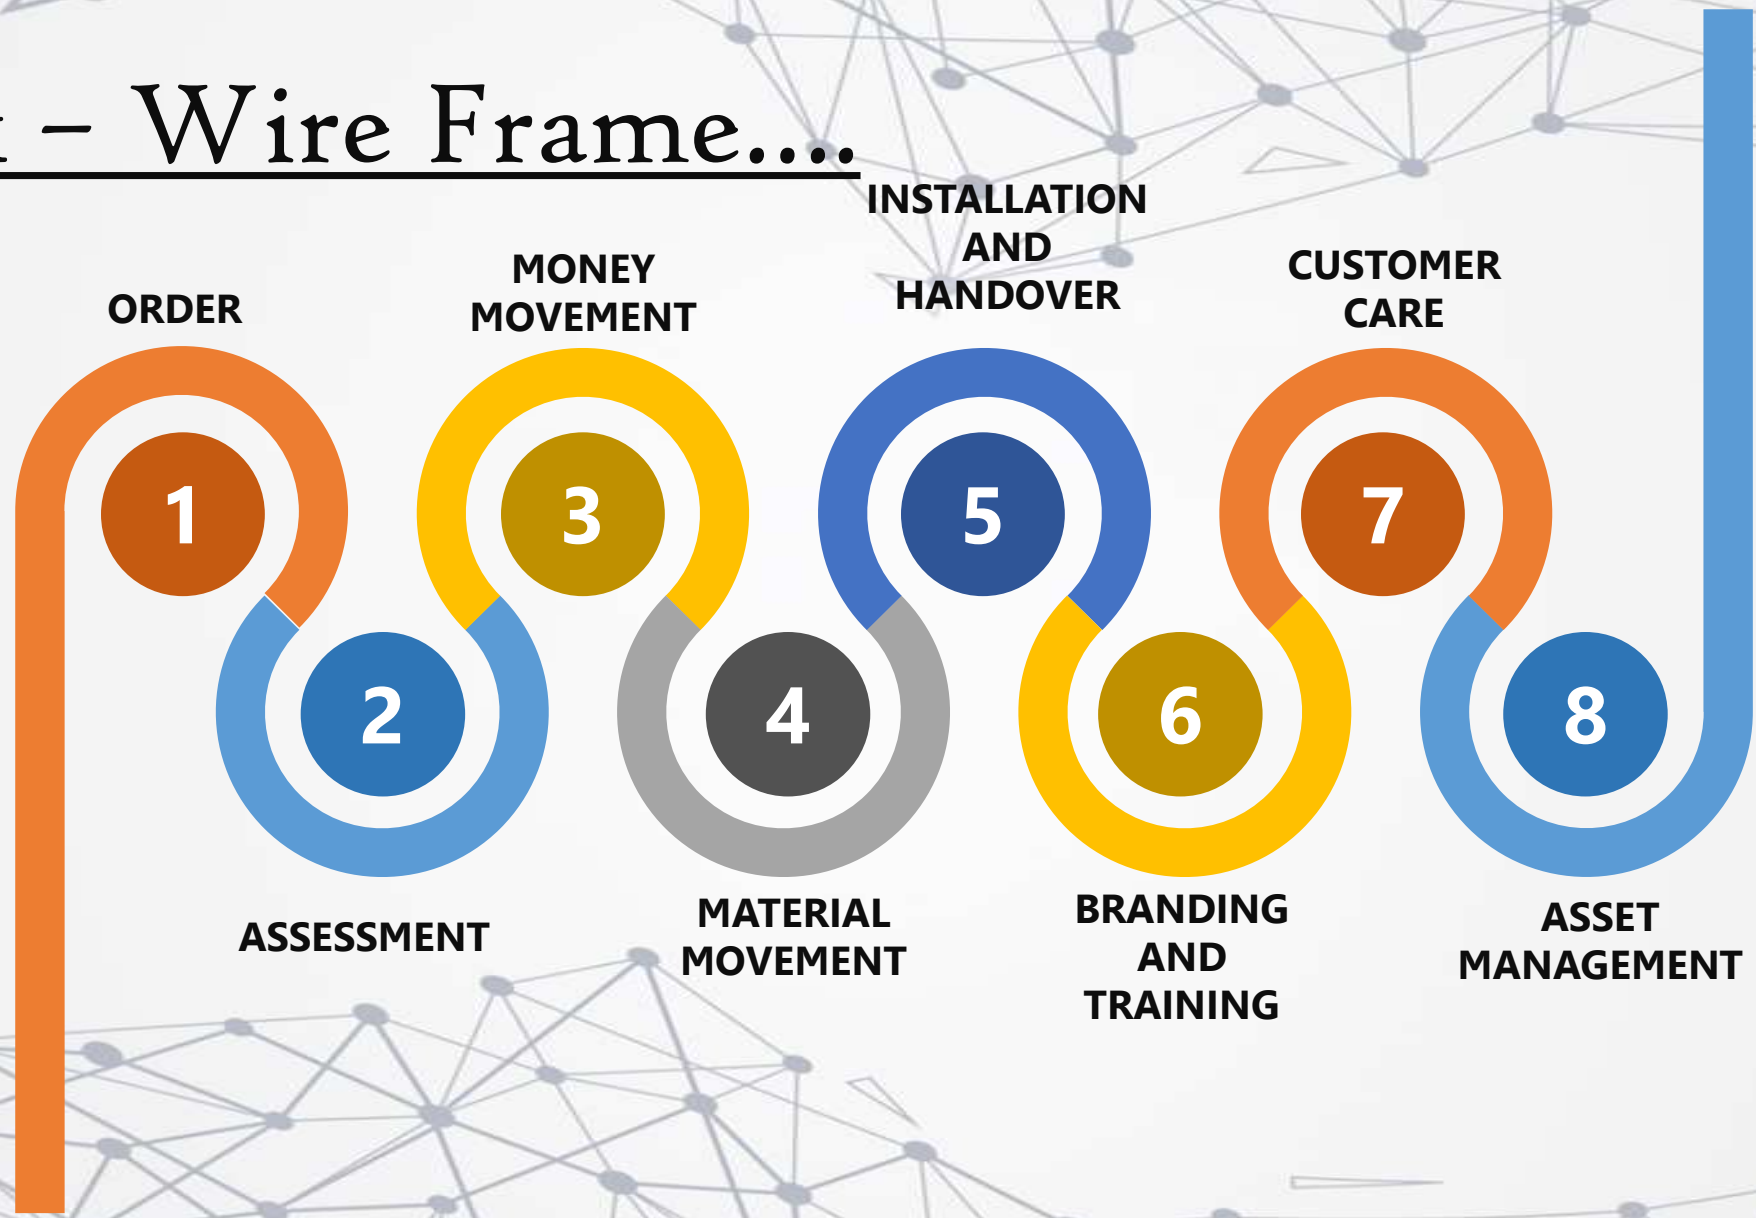

# *Asset Management (Earn through Dashboard)*

Time does not allow to overlook the productivity and its times wastage which is almost 10% –20% of the profit. Profit your business by keeping a “tech-eye” on Asset’s performance monitoring and controls.

Run your company through dashboard – dependent information within a shape of calculated matrix to scale decisions It can Control assets by misusing. Know how hard your equipment has been working.

# Work - Wire Frame....

## CAUTION NEEDED

The equipment used in installation may be common. **BUT**, it is seen due to non adoptive of technical solutions and selection of right product, This **investment becomes almost ZERO**.

Mostly, Observed the heavy **loss of assets** due to non-adoptions of technical installation guidelines and absence of security and safety measures for designing and installations.

To get the proper return from the workable and performing asset this become very essential to adopt quality installation and select the good equipment's to generate growth. Though if we need to spend a bit amount for the quality procedures. **WE**

**MEAN IT....**

A little bit... Spending on service part is negligible increase in entire project cost but this may lead a **HUGE plant performance and wealth generation**.

“Excellent service with homely touch...!  
All the best...!!”  
**1 MWP**

**GOODYEAR**

Fully Dependable  
Well Planned, Secure Execution, Trusted and Commanded.

Best Managed -Fully Responsive – we got remitted the Subsidy at early time.

Good Partner –  
Heartily Wishes-

**800 KWp**

HINDU Education Society – Sonipat – Haryana

“Technical and Supportive installation – we are getting maximum generation in our area”.

**100 kwp**

O.S Cool Home-Kundali - Haryana

“Out standing service Support with instant decision is **Edge of them.** They know the Art to satisfied the every concern in corporate”.

**1000 KWp**

**BKT**  
GROWING TOGETHER

“CARE with advisable capabilities. Humbled! With modern tools and solutions”

**1000 KWp-**

Orient Syntax – Bhiwadi Rajasthan

Many - More

“Technical patienceful EPC. Supply and installations. This ‘T’&‘D’ combination works with full determination even though during hardship.

1450 KWp

9 Locations”

“Recommendable supplier...!!  
Our Experience for -  
**450 KW solar - 5 locations.”**

**Bal Bharati Group of Education.**

“Technical Expert Team, Timely Execution with full synchronised support with Govt’ dept.

**150 KW -**

Hargobind COLD

Markanda – Haryana”

“Very well Connected at every step – with Strong Tech. capabilities.

**100 kwp – Roof Top”**

‘Our MD is very impressed’.
